

Biological Insecticide. Active ingredient: *Bacillus thuringiensis* subspecies *kurstaki* strain EG 7841 Lepidopteran toxin at 15 percent. Proposed classification/Use: None. For the control of lepidopteran pests on a variety of crops. (Mike Mendelsohn)

2. File Symbol: 69111-R. Applicant: L.P.C. USA, P.O. Box 685, Peculiar, MO 64078. Product name: Escape Gel. Insecticide. Active ingredient: An unique formula of essential oils of litsea, pinus, cymbogon, and cinnamomum. Proposed classification/Use: General. As an insect repellent on animals. (Rita Kumar)

3. File Symbol: 68173-E. Applicant: Kaken Pharmaceutical Co., Ltd. Agrochemicals and Animal Health Products Division, 3-4-10, Nihonbashi-Honcho Chuo-ku, Tokyo 103, Japan. Product name: Stopit Wettable Powder Turf Fungicide. Fungicide. Active ingredient: Polyoxorim-zinc (1:1), zinc 5-[[2-amino-5-O-(aminocarbonyl)-2-deoxy-L-xylonoyl]amino]-1-(5-carboxy-3,4-dihydro-2,4-dioxo-1(2H)-pyrimidinyl)-1,5-dideoxy-β-D-allofuranuronate at 2.5 percent. Proposed classification/Use: None. For the control of brown patch and large patch caused by *Rhizoctonia solani* on turf (except turf grown for sale or other commercial use as sod or for seed production, or for research purposes). (Denise Greenway)

4. File Symbol: 68173-R. Applicant: Kaken Pharmaceutical Co., Ltd. Fungicide. Product name: Polyoxin D Salt Technical. Fungicide. Active ingredient: Polyoxorim-zinc (1:1), zinc 5-[[2-amino-5-O-(aminocarbonyl)-2-deoxy-L-xylonoyl]amino]-1-(5-carboxy-3,4-dihydro-2,4-dioxo-1(2H)-pyrimidinyl)-1,5-dideoxy-β-D-allofuranuronate at 25.1 percent. Proposed classification/Use: None. For manufacturing use only for the production of fungicide formulations for use on turf. (Denise Greenway)

5. File Symbol: 007173-ERT. Applicant: LipaTech, Inc., 3101 West Custer Ave., Milwaukee, WI 53209. Product name: Nitragin Biological Fungicide. Fungicide. Active ingredient: *Bacillus cereus* strain UW85 (not less than 2 X 10<sup>9</sup> viable spores per milliliter) at 0.75 percent. Proposed classification/Use: None. For use as a seed treatment. (James Boland)

6. File Symbol: 007173-EEN. Applicant: LipaTech, Inc. Product name: Nitragin Biological Fungicide. Fungicide. Active ingredient: *Bacillus cereus* strain UW85 (not less than 2 X 10<sup>9</sup> viable spores per milliliter) at 0.75 percent. Proposed classification/Use: None. This technical product is for manufacturing use only. (James Boland)

## II. Products Involving a Changed Use Pattern

1. File Symbol: 67748-E. Applicant: Meiji Milk Product Co., Ltd. Kyobashi, 2 - 3 - 6, Chou-ku, Tokyo, 104 Japan. Product name: Phytohealth M 14 Post-Harvest Fungicide. Fungicide. Active ingredient: Sodium bicarbonate at 80.00 percent. Proposed classification/Use: None. To include in its presently registered use a new use to control green mold on citrus fruits after harvest during their storage and transport. (Denise Greenway)

2. File Symbol: 67748-R. Applicant: Meiji Milk Product Co., Ltd. Product name: Phytohealth J08 Post-Harvest Fungicide. Fungicide. Active ingredient: Sodium bicarbonate at 80.00 percent. Proposed classification/Use: None. To include in its presently registered use a new use to control green mold on citrus fruits after harvest during their storage and transport. (Denise Greenway)

3. File Symbol: 53219-RR. Applicant: Mycogen Corporation, 5501 Oberlin Drive, San Diego, CA 92121-1718. Product name: Thinex Blossom Thinner. Plant Growth Regulator. Active ingredients: Pelargonic acid and related fatty acids (C6-C12) at 57.0 and 3.0 percent respectively. Proposed classification/Use: None. To include in its presently registered use a new use as a thinning agent on apples, nectarines, peaches, grapes, ornamental trees, and shrubs. (Paul Zubkoff)

Notice of approval or denial of an application to register a pesticide product will be announced in the Federal Register. The procedure for requesting data will be given in the Federal Register if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

A record has been established for this notice under docket number [OPP-30392] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Rm. 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency,

Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in ADDRESSES at the beginning of this document.

Written comments filed pursuant to this notice, will be available in the Public Response and Program Resources Branch, Field Operations Division at the address provided from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. It is suggested that persons interested in reviewing the application file, telephone this office at (703-305-5805), to ensure that the file is available on the date of intended visit.

Authority: 7 U.S.C. 136.

## List of Subjects

Environmental protection, Pesticides and pests, Product registration.

Dated: September 15, 1995.

Janet L. Andersen,  
Acting Director, Biopesticides and Pollution Prevention Division, Office of Pesticide Programs.

### Notice of Availability of Pesticide Data Submitters List

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces the availability of an updated version of the Pesticide Data Submitters List which supersedes and replaces all previous versions.

**FOR FURTHER INFORMATION CONTACT:** By mail: John Jamula, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier delivery and telephone number: Rm. 226, Crystal

Mall #2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-6426; e-mail: jamula.john@epamail.epa.gov.

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

The Pesticide Data Submitters List is a compilation of names and addresses of registrants who wish to be notified and offered compensation for use of their data. It was developed to assist pesticide applicants in fulfilling their obligation as required by sections 3(c)(1)(f) and 3(c)(2)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and 40 CFR part 152 subpart E regarding ownership of data used to support registration. This notice announces the availability of an updated version of the Pesticide Data Submitters List which supersedes and replaces all previous versions.

##### II. Ordering Information

Microfiche copies of the document are available from the National Technical Information Service (NTIS) ATTN: Order Desk 5285 Port Royal Road, Springfield, VA 22161. Telephone: (703) 487-4650. When requesting a document from NTIS, please provide its name and NTIS Publication Number (PB). The NTIS Publication for this version of the Pesticide Data Submitters List is PB95-264149.

##### III. Electronic Access

The Pesticide Data Submitters List is available on EPA's gopher server and two other pathways on the Internet. The Internet address of EPA's gopher server is GOPHER.EPA.GOV. This information also is available using File Transfer Protocol (FTP) on FTP.EPA.GOV or using World Wide Web (WWW) on WWW.EPA.GOV.

The Pesticide Data Submitters List is also available on the Pesticides Special Review and Reregistration Information System Bulletin Board System. This Bulletin Board System (BBS) is a computer set up to accept calls from over a telephone line and allow callers to use the computer. Anyone with a computer or terminal connected to a phone line or networked to one can dial into the BBS and perform the functions it is set up to allow.

The telephone number of this bulletin board is (703) 308-7224. To connect to this or any other BBS, several parameters in your communication software must be set appropriately. The settings for this BBS are the standard settings for most: 8 data bits, no parity, and 1 stop bit (abbreviated as 8N1). Communication speeds from 2400 bps to 28.8K bps are available, accommodating almost all speeds

available in modems on the market today. The system displays color ANSI graphics as well as ASCII text.

##### IV. From the Internet

The Pesticide Special Review and Reregistration Information System can be accessed via GSA's Fedworld system. Telnet or FTP to FEDWORLD.GOV and follow the onscreen instructions to get to the gateway.

##### V. From a LAN

Many Local Area Networks (LANs) are connected to the telephone network. While it is not possible to address the multitude of possible configurations here, your network administrator will be able to tell you if you are able to dial out to other systems from your LAN and what specific software you have available to do this.

#### **Phloxine B and Uranine; Establishment of an Exemption from the Requirement of a Tolerance**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** EPA has established an exemption from the requirement of a tolerance for use of the insecticide Phloxine B and Uranine, in or on certain raw agricultural commodities.

**DATES:** This temporary exemption from the requirement of a tolerance expires August 9, 1997.

**FOR FURTHER INFORMATION CONTACT:** By mail: Robert Forrest, Product Manager (PM 14), Registration Division (7505C) Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 219, CM#2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-6600; e-mail: forrest.robert@epamail.epa.gov.

**SUPPLEMENTARY INFORMATION:** Agricultural Research Service (ARS), Department of Agriculture (USDA), Rm. 358A, Washington, DC 20250-0108, has requested in pesticide petition PP 5G4438, the establishment of an

exemption from the requirement of a tolerance for use of the insecticide Phloxine B and Uranine on coffee, grapefruit, and oranges. This temporary exemption from the requirements of a tolerance will permit the marketing of the above raw agricultural commodities when treated in accordance with the provisions of experimental use permit 11312-EUP-100, which is being issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that the exemption from the requirement of a tolerance will protect the public health. Therefore, the temporary exemption from the requirement of a tolerance has been established on the condition that the pesticide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.

2. USDA/ARS, must immediately notify the EPA of any findings from the experimental use permit that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary exemption from the requirement of a tolerance expires August 9, 1997. Residues remaining in or on all raw agricultural commodities after this expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary exemption from the requirement of a tolerance. This temporary exemption from the requirement of a tolerance may be revoked if the experimental use permit is revoked or if any experience with or scientific data on this pesticide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirement of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant
